

CONSERVATORY BISTRO At The Greenhouse

“We are very happy to present you with this new concept of casual dining at The Cellars-Hohenort Hotel.

Due to the current global economy, we have introduced a more relaxed style of lunch menu;

which is as light on the pocket as it is on the figure.

We are now offering a wide range of salads, grilled dishes and favourite bistro classics, all casually presented with flavour and texture in mind.

And on the same note, may I also take the time to reassure you that in no way are we going to compromise the wonderful ambience of The Greenhouse restaurant, which goes from strength to strength; and includes a Tasting Menu experience, not to be missed.”

Peter Tempelhoff
